

## Solar LED Street Light

The Solar LED street light is an intelligent outdoor lighting system that provides powerful lighting into an all-in-one compact package and is easy to install. During the day the highly efficient solar panel collects energy from the sun and stores that power in the advanced lithium battery. At night the powerful LED's automatically turn on providing ambient light for all to enjoy.

Solar LED Street Light

### **Advantages of the Solar LED Street Light:**

- 1.High quality: Use MeanWell driver,Nichia leds.
- 2.High brightness: 140LM/W.
- 3.Dust and snow proof: Adopt smooth die-cast aluminum housing,successfully prevent the dust and snow from accumulating on the housing,thus better heat dissipation and longer life span.
- 4.Easy to disassemble and assemble: You can easily open and cover up the housing with your hands,don't need any additional tools.Once there is problem on the driver it is very convenient to change for a new one.
- 5.More function available: Photocell,NEMA smart control system,Lora smart control system.

6.Lithium battery installed on pole near the lamp, closer distance and less energy lose, ensuring high efficiency of power supply. What's more, the hanging battery increases the difficulty for vandalism and theft than buried battery underground.

**Specifications of Solar LED Street Light:**

Illumination Time	12h
Cell Type	Lead Acid Battery
Voltage	12/24V
Autonomy	> 25 Days
Solar Panel	Poly Crystalline
Usage	Garden, Street, Road
Certification	CE, RoHS
LED Color Temperature	3000K-7000K
Storage Temperature	-40~+60
Long Life Span	up to 60,000 Hours
Specification	500*210*68 mm
G/W	19.8kg
N/W	17.5kg
Warranty	3 Years
Install Heigh	8 Meters
Suggested Pole Height	7~9m

**Frequently Asked Questions about Solar LED Street Light:**
